joanna cannon s scholarship and teaching have helped shape the historical study of thirteenth and fourteenth century italian art this essay collection by her former students is a tribute to her work the essays collected here form a tribute to joanna cannon whose scholarship and teaching have done so much to shape the historical study of thirteenth and fourteenth century italian art her teaching lies at the heart of this book as its chapters are all written by those who gained their doctorates under her supervision the reach of her interests and expertise is also reflected in its range of

subjects the book is unified by its concentration on Italian art history and material culture spanning the thirteenth to the fifteenth centuries but within that scope the individual essays focus on an impressive variety of subjects across many media including panel painting wall painting architecture sculpture metalwork manuscripts and gilded glass ranging across Italy from Bologna to Siena to Assisi to Florence they address key themes in the field such as artistic patronage sainthood and sanctity the visual culture of the mendicant orders devotional practice and civic religion some essays bring fresh approaches to familiar material Ambrogio Lorenzetti's Saint Nicholas panels the frescoes in Siena's Palazzo Pubblico Simone Martini's Holy Family while others illuminate objects and images that are less well known the central panel of the Santa Chiara triptych in Trieste and the statue of Saint Francis in San Francesco in Siena as a collection they combine to make an important contribution to the study of early Italian art seeking thereby to echo the extraordinary contribution of Joanna Cannon's own work to that field
